Skills Cymru is the largest careers and skills event for young people in Wales. With the first Skills Cymru event taking place in 2010 we are firmly established as the 'must attend' event for school and college groups from across Wales.

Skills Cymru brings together national and local employers, universities, colleges and training providers to meet with young people between ages of 14-24, parents/carers and teachers.

Careers Wales is delighted to support Skills Cymru in hosting an event that brings together a wide range of national and local employers, universities, colleges, and training providers. The event offers young people, parents/carers, and teachers a unique opportunity to engage directly with industry professionals and educators, helping to broaden their knowledge of the world of work.

NAS Media are widely regarded as the UK's leading organiser of events in the future talent arena.

Over the past 10 years we have worked with over **1100 exhibitors** and attracted a phenomenal **600,000 plus young people**, parents/carers and teachers to our events.

Existing events in our portfolio include:

- **National Apprenticeship Shows**
- **National School & College Leaver Festival at the NEC**
- **London School & College Leaver Festival**
- **GradFest at ExCeL London**

Most of our visitors are from School and College year groups 13, 12 and 11. Our dedicated late afternoon/early evening session on the first day attracts a significant number of parents/carers/teachers and individuals.

These sessions are well attended, and feedback from parents/carers has been that they are incredibly informative and supportive, helping them to guide and understand their young person's journey.

This event is promoted to every Secondary School, FE College, PRU and SEN Establishment, as well as other educational and community groups, across Wales.

- **Year Heads**
- **Careers Leads**

We provide a **travel bursary** towards the cost of transport for education establishments bringing groups to visit. At a time where budgets are seriously under pressure this gives us a distinct advantage over similar events and encourages Schools/Colleges to bring whole year groups.
